

# INNERCONNECTEDNESS TO ALL Alchemizing Our Perspectives

With Hydee Tehana and Lisa Denning

February 2-7, 2025 (week 1) and/or February 9-14, 2025 (week 2)  
Kona, Hawaii

Much is happening on the world stage right now and distractions are in abundance. How can you stay centered in a world that continually throws you off balance on purpose? You are here to master your frequencies in this multi-frequential, hall of mirrors. By remembering and going within, you find all the answers to everything you ever wanted to know and more.

Do you wonder what you are doing here on Earth?  
Do you question the meaning of life where we are taught to go to school, get a job, get married, have children, retire, and die? Is that all there is to life or is there much more below the surface? Are you ready to find out?

On the Big Island of Hawaii exists a multitude of frequencies that many people find easy to tap into as Hawaii is surrounded by Mother Ocean which provides liquid light to all our ocean beings. The salt water cleanses our aura and assists us in seeing different ways of being.

We have many ocean beings who are reminding us who we are and what we are doing here. Hawaii has many species of dolphins and whales who utilize their sound vibrations to assist us in remembering if we choose. Pilot whales are here year round and have helped humanity for many years in assisting boats to find their way to shore.

You can let go of any worries or anxieties and ask the land and ocean to assist you in releasing, as well as bringing in your next steps. This is also a special time

as the Humpback whales will be here in Hawaii...playing, dancing, birthing their young, and mating. These amazing beings hold the history of this Earth and carry a powerful yet, gentle wisdom within. They sing the new frequencies of this world into the ocean floor that is carried along the ley lines of this Earth.

Ancient manta rays fly through our waters and are just majestic as they move gracefully in the ocean. They feed on plankton and are some of the most docile beings. We will be swimming with them and connecting with their energy.

All is rejoicing as we come back into union. Humanity has been separate for quite a while now and many of us are ready to remember. We are opening our home and land for you to enjoy the high vibrational energy here as well as enjoy food grown directly from our farm. There are many opportunities for you to connect to the land, trees, elementals, fairies, birds, chickens, ducks, turkeys, bees, cats, dogs, etc...

Mother Nature is guiding us humans back into her realm as many of us have become separated from her. Between being in the ocean and connecting to the energy of our land, you will become more centered and grounded if you choose. There are many opportunities of transformation during this retreat where your inner guide is leading you to let go of anything holding you back. As the author, Richard Bach, says, "Argue for your limitations and sure enough, they're yours."

This is a time for you and a gift to yourself in diving deeper into who you truly are. Waiting for you under any self-imposed limitation is your true essence. People don't need to be saved or rescued. People need knowledge of their own power and how to access it. The veils are thinning and opening on many levels.

On this retreat, we will spend time on the water with the dolphins and whales as well as spending time on our 7 acres of sacred land, TeHana Ohana, with the ancestors, elementals, trees, gardens, bees, chickens, turkeys, birds, cats, ducks, dogs, flowers, nature spirits, and devas. This land is full of abundance and is the land "where people think different."

Remembering how to connect and hear Mother Nature in her many forms will be discussed and experienced in this retreat. Connecting with a tree, manta ray, duck, elemental, fairy, whale, or even the lava rocks will remind us how everything is conscious and listening. Everything is aware and once we remember how to tune into their frequency, a whole new world opens for us. All of Mother Nature desires contact with us humans and asks us to take our place as co-creators of this reality system. We will be

transformed by the love and joy of the land and sea beings, while merging with their essence.

We will be going out with a fantastic crew on a boat who assist us in the water. There are many pods of dolphins in our warm waters year round as well as pilot whales and many other types of cetaceans. A night dive with the majestic manta rays will connect us with the gentleness of these powerful beings. We will swim with the cetaceans during the days on the boat and then, in the afternoons, we will come together

with discussions, sharings, and meditations that will deepen our connections to the ocean, cetaceans, land, birds, plants, and animals, as well as, our awareness and consciousness.

When we are at TeHana Ohana, we will be connecting with the land and all the inhabitants, allowing her to shift our frequencies as we choose. This is a special multidimensional place on sacred land where the people think different. Being here at Tehana Ohana will be an incredible experience on those days as these higher energies “rewire” us into our new ways of seeing the world.

TeHana means “To Shine” in Maori and Ohana means “Family” and/or “To Gather” in Hawaiian. TeHana Ohana is from the land to the oceans to the stars. She offers over 150 producing avocado trees and other trees including: coffee, cacao, vanilla, banana, papaya, guava, cherries, mango, sapote, lychee, dragon fruit, orange, lemon, Kona lime, poha berry, black berries, tree tomatoes, fig and more. Our gardens include: ube (purple sweet potato), cassava, lima beans, taro, yacon, asparagus, pineapples and more. We are working with the latest copper technology to enhance growth and feed our land with free energy.

Are you seeking to move into a higher level of consciousness and noticing that there are limitations that have somehow been programmed in? Our world of duality on this Earthly realm would not exist if we didn't agree to take on limitations. Why did we do this? Let's explore and unravel the mysteries of existence in our 3 dimensional world and alchemize what no longer makes sense.

This is an exceptional time to come to Hawaii to relax and rejuvenate while being with the cetaceans and the sacred land as they have many messages for humanity while filling our hearts with joy. All of Nature is rejoicing as more and more of humanity is remembering our deeper connection to Mother Nature.

This week long retreat allows us to experience heart-centered communication, access the expanded awareness of group consciousness, and practice personal mastery skills to live in a multiverse reality of unlimited potential. Some topics covered and

experienced in this retreat will be: how Mother Nature communicates with us, how to shift limiting beliefs, the nature of reality, the power of our imagination, and our multidimensional nature.

With the Mother Nature as our guide, we will play in higher dimensional consciousness and experience our core essence without the confines of space and time. Come and remember a different way of being in this world...where you live and play in joy, fun, and laughter!

**HOSTS AND GUIDES:**

Your hosts and guides for the seminar will be Hydee Tehana and Lisa Denning.

**Hydee Tehana, M.S.** is your seminar host and guide for your journey. Hydee has a deep love of all of Mother Nature which has always been part of her life. Life opened up for her more deeply over 20 years ago when life stopped making sense and began questioning all she was ever taught. Hydee began remembering her past lives and lives in other realms. She met the wild dolphins in 2013 which changed her life and began to remember even more of her connections with them and all the cetaceans. Hydee loves to swim in the ocean and to be with all the oceanic beings, as well as be on the land, in the mountains, and

forests. By listening and allowing her guidance to take charge, she began following the intuition of her heart.

Hydee has deeply explored many topics including the cetaceans, nature of reality, sacred geometry, multidimensionality, power of our mind, light, time travel, our multidimensional heart, sound, language of energy, Mother Nature, living water, space travel, and more. She has a background as a firefighter/paramedic for over 20 years which allowed her to be with people as they crossed over and helping people at their toughest times. Spirit guided her to retire from the fire department to a new spiritual path of sharing, teaching, and writing. Hydee is an author, visionary, teacher, speaker, and guide. **Lisa Denning** is your seminar host and guide for your journey. She is an adventurer, photographer, mermaid, writer, and seeker of fun. Lisa has always been an ocean being and this is where she feels most alive and connected to the truth of who she is. She grew up in New Orleans and moved to the Big Island of Hawaii in 1999 because her soul was calling her to the ocean to be with the dolphins and to heal. Lisa was ready to find out more about the connection she had been feeling with them all of her life. On her first swim in the Hawaii waters, Lisa was surrounded by a pod of wild dolphins and welcomed into their pod.

For the last 24 years, she continues swimming with them, diving deeper into parts of herself. Lisa has traveled around the world to meet many species of dolphins and whales while capturing these magical moments on film and with photographs. She has co-led retreats in many locations with dolphins and whales for the last 24 years. Lisa is also the co-founder of Light ON Foundation in Kona, which provides healing opportunities for survivors of sexual assault, domestic violence, and other forms of personal trauma. She is passionate about introducing others to our ocean family. The dolphins and whales are choosing to make contact with humans more and more. We have so much to learn from these magnificent beings.
